FINE-101 Art History I: Art history, a broad intellectual discipline, is central to the humanities. This introductory course examines, analyzes, and evaluates the major time periods, movements, and trends in visual arts (primarily painting, sculpture, and architecture) of both Western and non-Western civilizations from prehistory through the Late Medieval period. In addition to stylistic and structural components, students study historical, social, religious, political, technological, philosophical, and gender issues integral to the production and development of art.

Requisites: None

Delivery: Online

Offered: Fall Only, Every Year

FINE-102 Art History II: Art history, a broad intellectual discipline, is central to the humanities. This introductory survey course continues examining, analyzing, and evaluating the major time periods, movements, and trends in the visual arts of both Western and non-Western civilizations from the Medieval period to the present. In addition to the stylistic and structural components of art, students will study historical, social, religious, political, technological, philosophical, and gender issues integral to the production and development of art.

FREN-120 Introductory French I (Not Currently Offered): This course is designed for students who have no knowledge of the French language and those who have not completed Grade 11 French or its equivalent. The course consists of listening comprehension and oral production, as well as reading, writing, and using French grammar. The emphasis is on communicative practice during class time. Students will be given lots of opportunities to speak the language as soon as they learn it (asking questions, reading dialogues, role-plays, and pronunciation). The explanation of grammar is done in situation or in context. During labs, students can practice their listening tasks by completing activity sheets. Students will be able to borrow cassettes or CDs for individual practice according to their needs.

Requisites: **FREN-120 Lab must be taken at the same time as this course.**

Delivery: Not Applicable

Offered: Fall Only, Every Year

FREN-121 Introductory French II (Not Currently Offered): With its emphasis on training in listening comprehension and oral production, this course is also designed for students who have studied French previously, allowing them to refresh their language skills, particularly their communicative abilities. The course also consists of reading, writing, and applying grammar rules in short compositions. During labs, students can practice their listening tasks by completing activity sheets. Students will be able to borrow cassettes or CDs for individual practice according to their needs.

sequence for students studying pure or applied science. Together, Math 101 and Math 102 satisfy the first-year mathematics requirement in all university transfer science and applied science programs. Topics include theory of limits, continuous and differentiable functions, algebraic and transcendental functions, basic optimization theory, and applications. - 906

Delivery: In-person

Offered: Fall Only, Every Year

PHIL-102 Theory of Knowledge: An examination of skeptical doubts concerning the possibility of knowledge. What distinguishes knowledge from opinion? Does evidence have to convince everyone before it constitutes proof? Does what is true depend on what people regard as true? Can perception show us how the world really is or merely how it appears to creatures like us? Should we believe only what there is sufficient evidence to support? How is faith related to knowledge and belief?

Requisites: None

Delivery: In-person

Offered: Spring Only, Every Year

PHIL-115 World Religions I: A foundational course in the study of religion intended as an introduction to the religions that have a significant following and/or influence in our world.

Requisites: None

Delivery: In-person

Offered: Spring Only, Every Year

PSYC-101 Introduction to Psychology I: This general survey course includes topics such as a brief history of psychology, basic research methodology, biological psychology, sensation, perception, consciousness, learning, memory, language and thought.

Requisites: None

Delivery: In-person, Online

Offered: All Terms, Every Year

PSYC-102 Introduction to Psychology II:

PSCI-100 Intro to Politics & Government: This course is designed to provide students with a basic foundation in the study of politics, government and society. The objective of this course is to introduce students to the complex world of politics, in order to develop the skills required to critically assess questions related to ideology, social justice, political organization, government policies and decisions. By learning about the essential concepts of politics, and the processes of government, students will develop the skills to be engaged yet critical citizens. Although much of the emphasis will be on Canadian politics, we will be focusing on political developments in other parts of the world.

Requisites: None

Delivery: In-person, Online

Offered: All Terms, Every Year

SOC-101 Intro. to Sociology I: An introduction to the basic sociological theories and methods for studying individuals, groups, and institutions. Topics will include culture, socialization, families, education, gender, aging, and deviance. These concerns will be illustrated and developed with Canadian materials.

Requisites: None

Delivery: In-person, Hyflex

Offered: All Terms, Every Year

SOC-102 Intro. to Sociology II: A continuation of SOC 101. Topics described and explained include the characteristics and changes in the general population, local communities, ethnic groups, social movements, political parties, work settings, and religious organizations. These concerns will be illustrated and developed with Canadian materials.

Requisites: SOC-101, minimum D grade, must be completed prior to taking this course.

Delivery: In-person, Hyflex

Offered: Fall/Spring Only, Every Year

SOC-120 Sexual Diversity & Equity: Using a sociological perspective, this course will provide a background to current issues utilizing a multidisciplinary survey of the historical and cultural roots through which we have come to define sexuality and gender. The course draws upon a selection of theoretical perspectives and sociological case studies de.8 2e.8 2e.8 o (our)13 e se speexal and ge per ipeentltvi

SSWK-151 Social Welfare Policy: This course provides a basic introduction to social welfare policy in Canada, its historical development, and its role within the political and economic context of Canadian society. A major emphasis is placed on a review of the values and ideology implicit in various types of social welfare policy. Students will critically analyze the effect of social welfare policies on client populations and upon themselves as social service workers. Class discussions focus on northern issues.

Requisites: None

Delivery: In-person, Hyflex

Offered: Spring Only, Every Year

SSWK-171 Intro to Social Work Practice: Students are introduced to the practice of social service, its values, knowledge, and skill foundations. The principles and contributions of mutual aid, self-help, and natural helping networks are examined. The relationship between social service practice and the communities and organizations in which it takes place is a focus of discussion. Other discussion topics include current trends in the field of paraprofessional services, ethics, and the basic structure and function of social service agencies.

Requisites: None

Delivery: In-person, Hyflex

Offered: Fall Only, Every Year

WMST-101 Intro to Women's Studies I: This course uses a multidisciplinary approach to the study of women in society and academia. It explores interdisciplinary and historical perspectives on women and examines the development of feminist theories and methodologies. Emphasis is placed on the diversity of women's experience within the context of differences in class, race, age, and sexual orientation. The connections between women's experiences in the everyday world and their representation in Canadian institutions will be explored, with the aim of understanding the relationship between personal empowerment and social change.

Requisites: None

Delivery: In-person, Hyflex

Offered: Fall Only, Every Year

WMST-102 Intro to Women's Studies II: This course uses the multidisciplinary approach to the study of women in society and academia developed in WMST 101. The course will focus on the critical examination of gender segregation in the paid labour force and its relationship to institutionalized representations of women in science and medicine, law, politics, religion, and family. Emphasis will be placed on the role of women in the development of Canadian society and the impact of social change on women's lives.
